

BEE's Facilitation Centre

Home > About Us > BEE Facilitation Center

Concept Note

The **Energy Conservation Act (EC Act)** was enacted in 2001 with the goal of reducing the energy intensity of the Indian economy. **The Bureau of Energy Efficiency (BEE)** was set up as a statutory body on 1st March 2002 at the central level to facilitate the implementation of the EC Act.

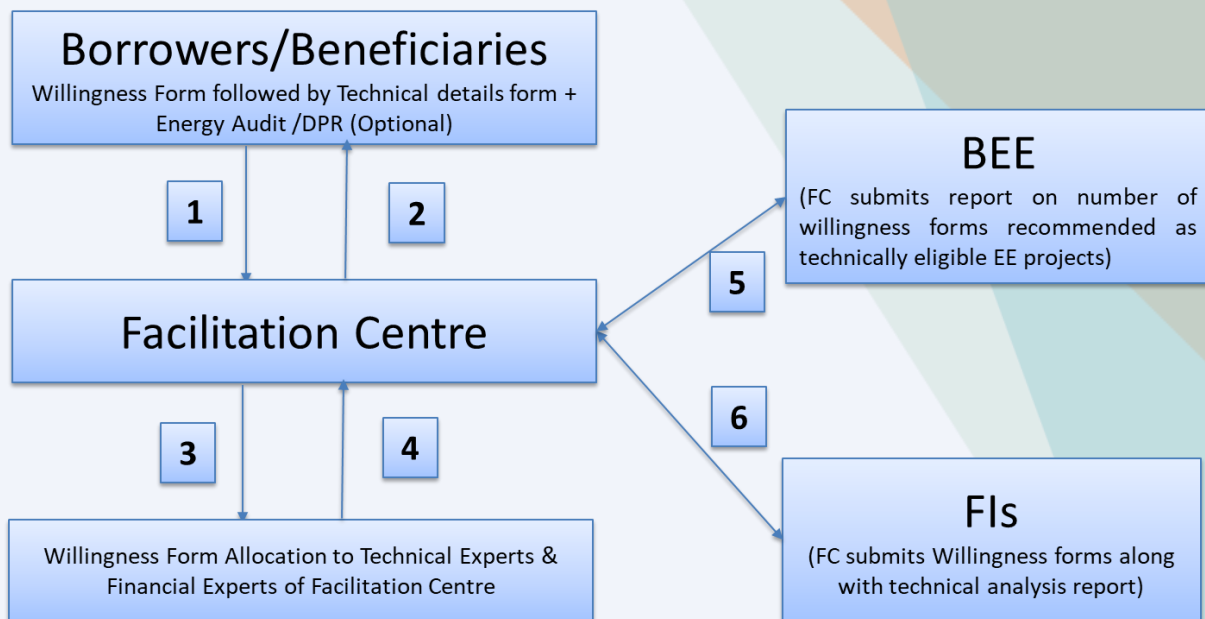

BEE, has initiated a number of **Energy Efficiency (EE)** initiatives in the areas of household lighting, commercial buildings, standards and labelling of appliances, demand side management in agriculture/municipalities, SME's and large industries including the initiation of the process for development of energy consumption norms for industrial sub sectors, capacity building of SDA's etc.

BEE has set-up a **Facilitation Centre** for encouraging and up scaling Energy Efficiency Financing in the country. The **objective of the Facilitation Centre** is to collect the willingness forms and spread awareness of BEE's financing schemes among **various beneficiaries** like large industries /DCs under the PAT Scheme of BEE, MSMEs, commercial and institutional buildings, Municipalities, Corporations, and commercial establishments, **prepare the list of energy efficiency technologies**; and **develop an online platform** for mobilizing EE financing in the country. BEE has on boarded **M/s Darashaw and Company Private Limited** as consultant for setting up this Facilitation centre.

In order to achieve this objective, **the Facilitation Centre is closely working with SDAs, Municipalities, DISCOMs and other nodal agencies to organise a series of webinars/workshops to reach out to hosts, beneficiaries and borrowers for their willingness to invest in EE projects.**

Potential beneficiaries can fill in project related information in the **Willingness Form**. These forms will be evaluated by the **Facilitation Center for Energy Efficiency loan/project**. The Facilitation Centre may approach the potential borrower /applicant for any shortfall or additional information needed to prepare the recommendation report. The Willingness Form along with the **recommendation report** shall be submitted to BEE before being forwarded to the Financial Institutions (FIs) for further processing. FIs may coordinate with the potential borrowers for EE financing. The Facilitation centre will track the status of loan financing with support from concerned FIs for each energy efficiency project.

The Facilitation Centre has developed a dedicated Web-portal which will be vital in up scaling the efforts and ensuring maximum outreach across all industrial segments in the country. A dashboard would be provided to track the status of EE project financing. A login access would be provided to FIs and beneficiaries.

BEE'S FACILITATION DASHBOARD

The Facilitation Centre has prepared a list of EE technologies from various sectors. This list includes the basic parameters which FIs take into consideration, such as proposed Energy Savings in percentage as well as in Monetary Terms, Average cost of Investment and Payback Period. This will also help potential borrowers to take decisions regarding the implementation of EE projects. This list shall be continuously reviewed and updated by the Expert Committee formed by BEE on a regular basis.

The Facilitation Centre is closely working with SDAs, Municipalities, DISCOMs and other nodal agencies to organise a series of webinars/workshops to reach out to Hosts/beneficiaries/borrowers for their willingness to participate in EE financing. The ultimate objective is to promote and spread awareness of BEE's financing schemes among various stakeholders.

Mr. Ranjeet Sinha and Ms. Sunita Awadh shall be nodal officers from M/s Darashaw & Company Private Limited for Facilitation Centre and you may contact them at email id- beefacilitationcentre@gmail.com and eefp@beeindia.gov.in and their phone number is 9717350749.
